## BURNS HOBNOBS

Tommy and English Lord Make Speeches-In No Hurry to Fight Johnson.

London, April 1.-Tommy Burns, the champion heavyweight fighter, appeared in a new role tonight. He was a guest at the dinner of the Sphynx club and was down for a speech in a debate which had been arranged on "publicity in sport," which turned mainly to the ethics of Oxford's recent secret trial row. Unfortunately for Burns he was sand-wiched in the speaking between Lord Al-

verstone and E. Mostyn Pigott, two of London's best arter-dinner speakers. There was compensation in the fact, however, that Lord Alverstone, who was a great athlete in his younger days, went over to Burns, and, shaking him by the hand, said that he was pleased to meet a man who had played the game as

cleanly as Burns had.

Neill, Burns' manager, will sail for New York on the Lusitania Saturday. He will try to arrange a match with Johnson and will cover Johnson's deposit of 1:14. \$2,500, with \$2,500 additional. Burns says he is willing to allow the money to remain in the hands of the stakeholders third. Time, :49.

Fifth race, mile and an eighth—Temaceo promoters an opportunity of arranging the won, Glorifier second, Pedro third. Time, for from nine to twelve months to give promoters an opportunity of arranging the contest. He demands \$30,000 as his share of the prize money, no matter what the result of the fight, and he would prefer a contest of forty-five rounds, or to a finish, which would limit it to California

or Nevada.

Arrangements are about completed for another fight in England, in which Gunner Moir probably will be pitted against Burns, for a percentage of the gate receipts. The fight, if it is arranged, will take place in one of the big football grounds, and the price of admission will be from one shilling upwards, which means that at least 50,000 people would probably attend. probably attend.

San Francisco Bank Officials Say Business Conditions Will Soon Improve.

The American National bank of San Francisco believes that the end of unfavorable business conditions is near at hand. In a letter to its correspondents the cashier of the institution says: "It is becoming more apparent every day that the halting and uncertain condition of business now prevalent is the re-flection of a state of mind, rather than of flection of a state of mind, rather than of actual unfavorable factors in trade and finance.
